

# AGENDA 2030 INTERNATIONAL ASSIGNMENT

Topic: Water

Group 6: Lyderic, Sofia, Amos, Louis

# Table of contents

01

## FIRST QUESTION

What's the main body of water near your school?

02

## SECOND QUESTION

What for is it mainly used?

03

## THIRD QUESTION

Is it polluted?

01

What's the main body of water near your school?

**What's the main body of water near your school?**

**The most important body of water for tourism near my school is the Trasimeno lake but the most useful is the "Calcione" dam**

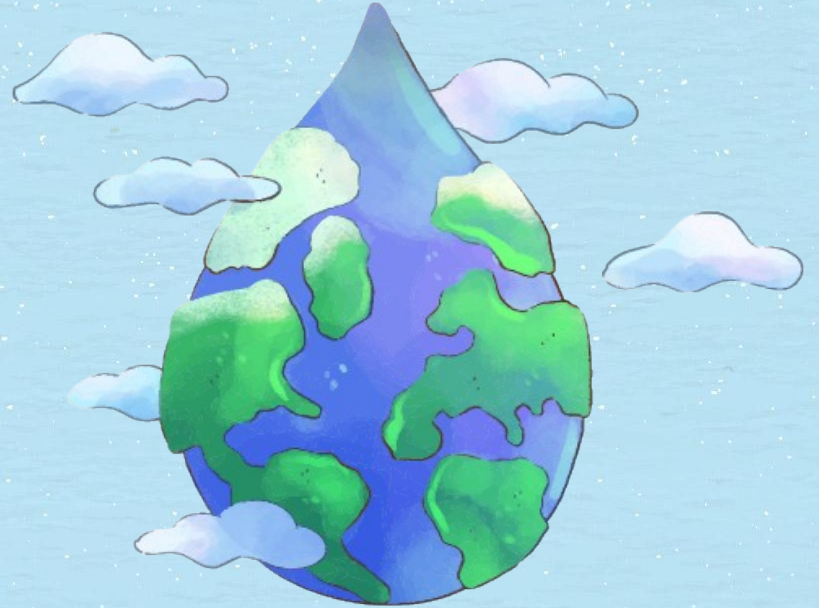

**ITALY(Sofia)**

CALCIONE DAM

# What's the main body of water near your school?

The main body of water near my school is the "Meuse" : it is a 950 km river that crosses France, Belgium and the Netherlands.

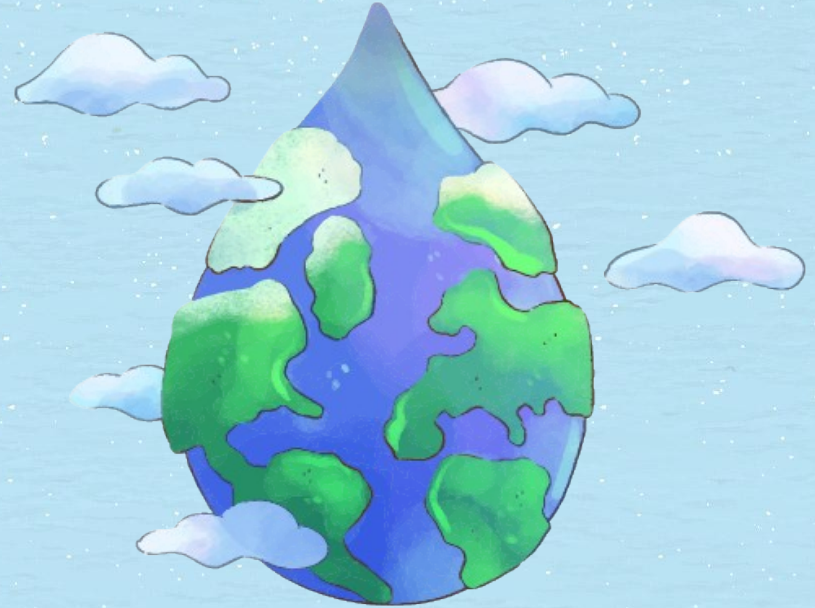

BELGIUM(Louis)

**What's the main body of water near your school?**

**Our main body of water in our school is the water treatment plant.**

**Water come from a lake and a river.**

**FINLAND(Amos)**

**What's the main body of water near your school?**

**Near my school there is a river. It's name is « la Loire ».**

**FRANCE (Lydéric)**

02

What for is it mainly used?

What for is it mainly used?

**The Calcione dam is mainly used to distribute water in houses, but it is famous for fishing and tourism too.**

ITALY(Sofia)

What for is it mainly used?

**It is used for  
trading by boat,  
make the  
industry work,  
for fun (fishing,  
boat ride,  
kayak, paddle).**

**BELGIUM(Louis)**

What for is it mainly used?

**It is mainly used for  
drinking and washing  
hands.**

**FINLAND(Amos)**

What for is it mainly used?

**The Loire is a wild river that is not very navigable (its bed is made up of sand). You can practice fishing there, canoeing for exemple, but it's too dangerous to swim there because of the currents. It's possible to walk along the Loire. There is many castel near the Loire..**

FRANCE(Lydéric)

03

■  
Is it polluted?

Is it polluted?

**No, the Calcione dam isn't polluted because of its location. In fact the dam is located in the nature and near there aren't roads or towns.**

ITALY(Sofia)

Is it polluted?

**The Meuse is  
polluted. There is  
a lot of waste.  
The water is  
green and  
undrinkable**

**BELGIUM(Louis)**

Is it polluted?

**It is not polluted :  
it is clean and  
drinkable.**

FINLAND(Amos)

# Is it polluted?

**The Loire is protected but studies show that it is polluted.**

**FRANCE (Lydéric)**

**THE END**
