AGENDA 2030: CHANGE THE SCHOOL TO CHANGE THE COMMUNITY
2020-1-BE01-KA229-074904

TITLE	GRAFFITI
DESCRIPTION	Linked to the theme of nutrition, we have planned an artistic activity to create murals in the school canteen. We showed the kids some images that represented food in a stylized form, from which they could be inspired to make their drawings on the wall. We also established that the drawings would be inserted inside a box to which we would create a colored frame, to make the work appear like real paintings.
PROCEDURE	Step 1 - Identification of the spaces in the walls, each space approximately 2.50 m x 1.00; Step 2 - Creating the frame with a paper tape; Step 3 - Creation of international groups, each group is given a box with different colors, of different types; Step 4 - Inside the boxes we drew with pencil the subjects to be represented, in each box we inserted a specific genre (the fruit box, the vegetable box, the typical Italian food box); Step 5 - We move on to the phase of color and shades Step 6 - As soon as the color is dry, remove the paper tape.
MATERIAL	Brushes, crayons, pencils, colors and paper tape, to create the squares precisely and to make the work without smudging (the tape was used to define the parts to be colored).
TIME	3 hours in two rounds (total 5/6 hours)
GROUP SIZE	Groups of 5/7 pupils worked on each graffiti
COMPETENCES AND SKILLS TO BE ACQUIRED	Use of color, ability to evaluate the proportions of an image to be replicated. Ability to render in an image in 3D.
NOTES (recommendation, pitfalls)	Ensure the active participation of all the students, even those not so good on drawing. Picture available on the project website.
School subjects involved	Work based on interdisciplinary approaches: art, environmental education, food education, creativity, foreign language, geometry.
School responsible for the realization of the activity	Istituto Comprensivo Lucignano - ITALY
